Braking

Feature

- Large sturdy tread blocks in the shoulder
- Latest tread compound for best grip in the wet

Effect

- High stiffness with improved support for the tread blocks when braking
- Better interlocking with the road surface

Benefit

- High safety and short braking distance on wet and dry roads

Noise and comfort

Feature

- Different numbers of tread blocks in the shoulder and central section
- Optimum subdivision of the tread blocks through sipes

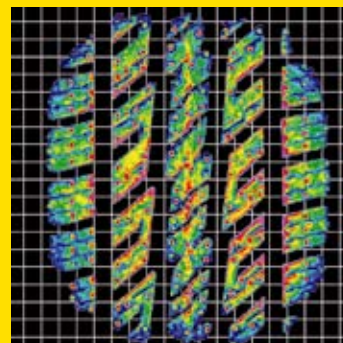

Effect

- The peaks in the noise ranges of the tyre shoulder and centre are at different frequencies, keeping the total noise low
- Optimised layout of sipes to smooth out noise peaks

Benefit

- Increased driving comfort
- No annoying tyre noises when travelling

Mileage performance

Feature

- Extra-flat tyre contour
- Optimised tread blocks for even stiffness
- Wear-resistant tread compound

Effect

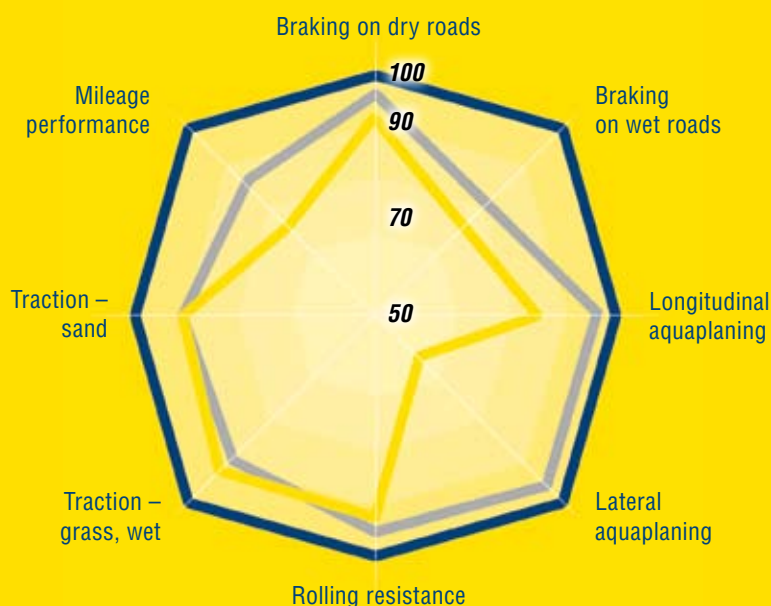

- Even ground pressure distribution without peaks in load
- Reduced slip in the ground contact patch
- Even, low tread wear

Benefit

- High mileage performance, long service life
