

Vanis 2 gets you further

If it's smooth running you want.

Then the Vanis 2 tyres have just what you need!

These tyres have exactly the right mix: The newly designed tread with flattened contours increases mileage and improves long-term endurance. If you're looking for optimum comfort, the increased safety of short braking distances and low aquaplaning risks, then Vanis 2 tyres are the right choice for you.

Barum 

Good tyres. Good deal.

The mix makes the difference: the smooth riding fuel saver

Safety

- Tie bars in the centre of the pattern and stable block type tread
- Optimised tread rigidity and increased stability in circumferential blocks
- High level of safety thanks to short braking distances on dry surfaces

Cost-effectiveness

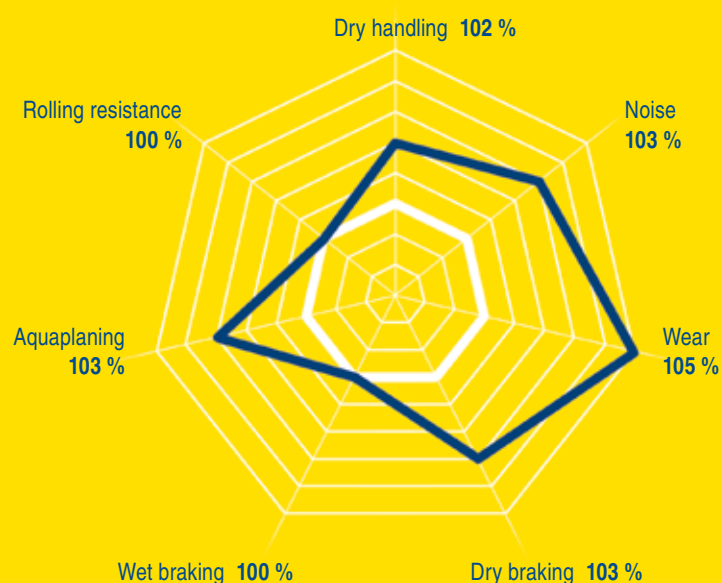

- Flat tyre contour and wear-optimised compound
- Increased ground contact area and thus tread wear volume
- Excellent price-performance ratio thanks to improved mileage

Comfort

- Noise breaker in shoulder area
- Noise cannot penetrate outwards thanks to closed shoulder grooves
- Increased driving comfort thanks to reduced noise levels for a pleasant journey
