

TIME FOR A CHANGE. TIME FOR CareMetix®. FOR YOUR HEALTH AND WELL-BEING.

So that you and your loved ones breathe in only goodness: ask for **CareMetix®**. During your annual filter replacement or at least every 15,000 kilometres travelled—for noticeably improved well-being in your car. Information is available online at caremetix.mahle.com or here:

Replace every
15,000 km or at
least **once a year.**

YOU BREATHE IN, BUT SMELL NOTHING. CareMetix® ELIMINATES ODOURS.

Traffic jams, tunnels, large construction sites, water treatment plants, and freshly fertilised fields—all these are sources of harmful ammonia and sulphur gases, which, until now, you have been exposed to in your car. The new **CareMetix®** cabin filter provides protection through S5 broadband technology—and blocks precisely these unpleasant odours. And it works: not just in the laboratory, but also on the road—tried and tested in everyday conditions!

MAHLE

Driven by performance

**A WORLD FIRST!
ODOUR FILTRATION YOU
CAN EXPERIENCE!**
S5 broadband technology: 5 layers
provide 5-fold protection.

NO MATTER WHAT'S IN THE AIR OUTSIDE, YOU CAN BREATHE EASILY INSIDE.

CareMetix®

The innovative cabin filter
with S5 broadband technology

URNS YOUR CAR INTO YOUR SANCTUARY.

CareMetix® — FOR TOTAL WELL-BEING.

The air we breathe is often polluted with harmful, allergenic substances and odours that conventional filters can't eliminate.

The solution: **CareMetix®**, a world first, with S5 broadband technology—5 layers provide 5-fold protection.

CareMetix® with S5 broadband technology

Protection against odours before they arise

Protection against pollen

Protection against soot & fine particulates

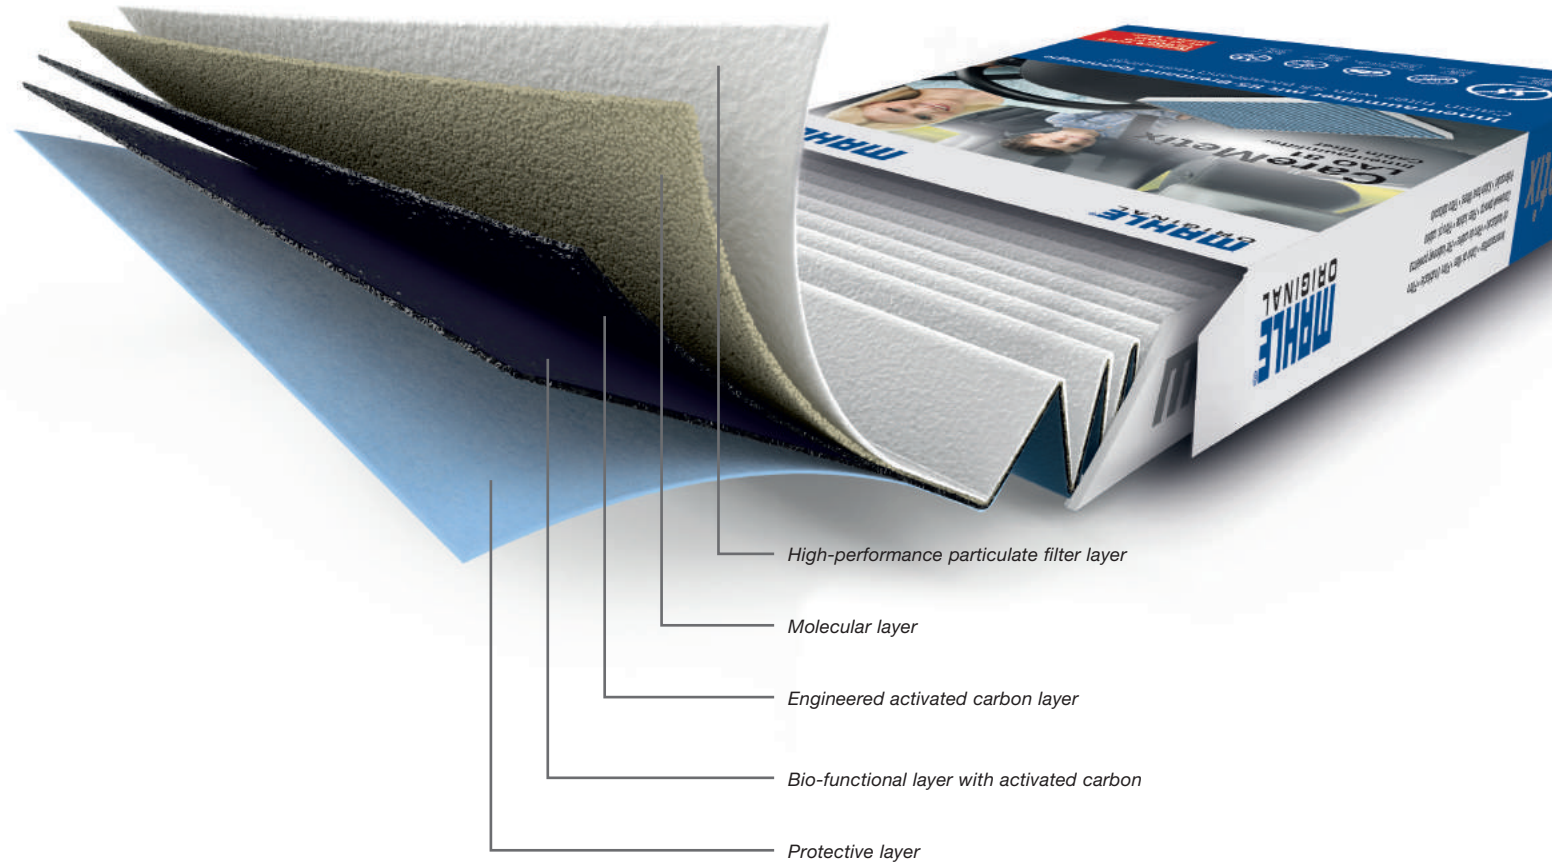

Protection against mould

Protection against bacteria

A WORLD FIRST!

CareMetix® — 5-FOLD PROTECTION THANKS TO S5 BROADBAND TECHNOLOGY.

When a vehicle is in operation, more than 100,000 litres of air are swept into the cabin every hour. The only barrier against pollution: the filter in the ventilation system.
