

## PLATINUM CLASSIC GAS SEMISYNTHETIC 10W-40

Quality class: API: SL  
Viscosity grad: SAE: 10W-40

### GENERAL FEATURES:

Multi-grade, semi-synthetic motor oil blended according to the state-of-the-art, modern technology. Its composition includes high quality base oils and a perfectly matched, seal-compatible package of enriching additives. Excellently chosen composition of ingredients is a guarantee of optimum engine protection under all operating conditions.

It guarantees:

- Effective lubrication and engine protection during start-up
- Perfect protection against sedimentation by keeping the deposits in a suspended matter
- Low degree of wear of engine components during start-up
- Excellent detergency and dispersing properties
- Durable lubricating film even under heavy operating conditions

### APPLICATION:

Platinum Classic Gas Semisynthetic 10W-40, thanks to the excellent manufacturing technology, allows for a year-round operation in passenger cars and light trucks equipped with gas fuel installation. Recommended both for newer and older vehicles in which the manufacturer recommends the use of oil with quality class API: SL typical for petrol engines. Recommended for four-stroke spark ignition engines adapted for the combustion of LPG.

PARAMETERS	UNIT	TYPICAL VALUES
Viscosity class SAE	-	10W-40
Kinematic viscosity in temp. 100°C	mm <sup>2</sup> /s	14,4
Viscosity index	-	158
Pour point	°C	-32
Ignition temperature	°C	233

**NOTE:**  
Physicochemical parameters listed in the table are typical values. Real values are stated in quality control certificates attached to each product lot.
