

# beep&park

## PRODUCT DATA SHEET

No. 632203

### Electronic control unit

- ▲ Works for front or rear installation
- ▲ Radio mute function
- ▲ Automatically deactivates the system when a trailer is connected
- ▲ Compatible with tow bar, bull bar and pulsed rear light signal
- ▲ Built-in auto-diagnostic function

### Ultrasonic sensors

- ▲ 4 flush mount sensors
- ▲ Paintable
- ▲ Waterproof IP 69K
- ▲ Adjustable support and screws for bumpers between 2 and 4mm

### Loud Speaker

- ▲ 3 sound levels + mute function
- ▲ Different sound frequencies between rear or front setting

### Rubber ring

- ▲ 3 different colours: black, grey and transparent for better integration for matching bumper colour
- ▲ Ensure tightness of the sensor and avoid false detection

### Wiring

- ▲ Single harness for quick installation of the sensors
- ▲ Easy identification of the cable by letters
- ▲ Screwed-in connector for easy installation and sensor replacement
- ▲ Power wire harness with easy signals identification

### Setting tools

- ▲ Jumper setting tool for easy ECU setting
- ▲ Cable ties and screws for a professional installation

### Instruction manual

- ▲ Available in 12 languages
- ▲ Detailed step by step installation
- ▲ Coloured wiring diagram for clear understanding

### Technical Information

Rated Voltage 9 to 16V  
Sound Levels 75dB to 87dB  
Sound Frequency: 800Hz to 1000Hz  
Detecting Range 0.1M to 1.7M  
Working Current <250mA

Sensor Frequency 40KHz  
Operating Temperature -40 °C to +85 °C  
Homologation E-mark, CE, RoHS, REACH  
MALSO standard compliant (ISO 17386)
