

PRO START 2824 12-24V

Overview

PRO START 2824 12-24V

cod. 829517

Battery-powered starter suitable for 12-24V starting of cars, vans, boats, agricultural vehicles, power sources etc. When connected to the cigar-lighter outlet it maintains the voltage on all circuits during battery changes and is also a 12V power source for use in emergencies.

Fit with a safety switch for starting, it does not damage the electronics of the vehicle and allows for a large number of starting operations before being recharged.

PRO START 2824 can be recharged using the special power supply, connected to the mains network, or using the cigar-lighter outlet of the vehicle (for the safeguard of the battery, charge for 12 hours before use, charge again after each use and every 3 months in any case).

Features:

- safety switch
- overload protection/polarity reversal protection acoustic/luminous alarm
- high efficiency led lamp
- battery charge status led
- battery charging status led
- 2 x 12V jack sockets
- cable-holder pocket.

Complete with: 230V AC 12V DC power adaptor, positive-negative cables with clamps, high efficiency lamp, double jack cable.

1 PH 230V
