

PRODUCT INFORMATION

product type:	a semiconductor alcohol tester
producer:	SENTECH
product model:	AL 2500 EXPERT

Sentech AL 2500 Expert is high quality and accurate product dedicated to individual users. It comes with very precise semi-conductor sensor and new, innovative processor which makes BAC test even more accurate. This alcohol tester is handheld and portable. There is possibility to perform tests without mouthpiece.

This model is often used for self-testing or testing friends and family. Alcohol tester must be calibrated periodically and batteries must be replaced in order to maintain accuracy.

TECHNICAL SPECIFICATION

power supply	2 x AA 1.5V Alkaline
result precision	0.1 ‰
re-calibration	every 6 months or 200 tests
accuracy	+/- 0.1‰ BAC at 0.5 ‰ BAC
exchangeble sensor	yes - service only
require mouthpiece	no
weight	85g with batteries
dimensions (l/h/d)	40 x 105 x 21 mm
test range	0.00 - 4.00 ‰

EXTRAS:

Possibility to perform tests without mouthpiece.

Battery save mode.

Battery level control.
