### Perfect and silent cooling

The **MODECOM SILENT FAN MC-CF13** notebook pad is a very robust product. It has been made of a high quality plastic material. The upper part of the pad has been covered with a special netlike surface that provides an excellent rejection of the generated heat by the computer, thanks to the many openings in the net. There is a very silent and efficient 14cm cooling fan, backlit with blue LED's, located directly under the cooling pad.

### A user-friendly product

**MODECOM SILENT FAN MC-CF13** has been designed to provide the highest comfort of use. The product employs numerous technologies which make working with a mobile computer pure pleasure. The two foldable legs deserve particular attention, as they make it possible to adjust the pad's angle of inclination. There is also a coiled USB cable with an adapter, installed in the bottom part of the pad, which enables comfortable connection to the notebook, without the need to block the USB port.

Additionally, the bottom part of the pad contains four anti-slip rubber pads, so as to enhance the stability of the pad. The super light-weight and compact design make the **MODECOM SILENT FAN MC-CF13** pad very comfortable in transport.
