EASY IN USE

The communication of the **Xblitz X600 Professional** takes place via Bluetooth. Installation is needed only once. Every time you get into your car, pairing your phone with the device will happen automatically.

It's not everything. **Xblitz X600 Professional** can act as an external speaker phone for applications such as navigation or mp3 player. In addition, it can support up to 2 devices at the same time.

INTELLIGENT START

Xblitz X600 Professional will wake up when it detects that your door has been opened. Autostart function increases the convenience of operation and allows for economic efficiency operation of the built-in battery.
