Professional universal cleaner

Properties

Alkaline detergent specially formulated for boats, containing specific complexing agents and sequestrants to solubilize perfectly traces of sodium, calcium, fat, smoke deposits, atmospheric dust. Specially conceived to clean **gelcoat but also stainless steel, glass, plexiglas, chrome, etc...**

09 Professional universal cleaner, with surfactants of vegetable origin, respects the environment and contains no phosphates, NTA, chlorine, silicones.

Very economical, because highly concentrated, it allows lower dosages.

Instructions of use

Dangerous. Observe the safety instructions.

Routine maintenance: dilute **40ml in a bucket with 10 l of water**, apply with a brush or sponge and then rinse well with clear water, then wipe or pass the squeegee.

For intense stains: dilute **10% with water in a bucket or in a spray bottle**, apply and rub with a brush or sponge, and rinse with clear water, then wipe off.

Technical specifications

Physical state: liquid **colour:** blue **pH:** ca. 13,5 **density:** ca. 1,09

Storage: keep tightly closed and protected from cold, frost, UV rays and heat in a ventilated place.

Contains: <5% (phosphonates, non-ionic surfactants, anionic surfactants).

Environment: The surfactants contained in this preparation comply with the criteria of biodegradability as defined in Regulation (EC) no 648/2004 on detergents.
