Wood & teak cleaning powder

Properties

WOOD & TEAK CLEANING POWDER is a water-free product specifically designed for cleaning and degreasing wooden surfaces in general and teak in particular.

ADVANTAGES :

- Ultra-concentrated product (water-free), making it very cost-effective to use.
- Contains no strong acids or solvents.
- Non-corrosive and non-flammable.
- Does not damage wood or joints.
- Non-toxic to the aquatic environment.
- Depending on the dilution used, it can be used for both routine maintenance and intensive cleaning.

Instructions for use

Respect usual safety measures for the use of chemical products and wear the appropriate individual protection equipment.

Routine maintenance: in a suitable container, mix approximately 200 g of powder with 10 litres of water, resulting in a dilution of around 2%. Use a container with easy access for a soft scrubbing brush. Wet the deck, then apply the cleaning solution and scrub vigorously in the direction of the wood grain. Leave it to act for 5 to 10 minutes, then rinse thoroughly with fresh water while brushing to progressively remove excess dirt.

Intensive cleaning: double the proportion to 400 g of powder for 10 litres of water (4% dilution) and follow the same procedure.

Do not apply the product in direct sunlight.

Technical specifications

Physical state: powder **Colour:** white **pH:** ca. 12 (1% solution) **Density:** ca. 0,93

Storage: keep tightly closed and protected from cold, frost, UV rays and heat in a ventilated place.
