

Vehicles with high energy demands and basic hoteling functions.

The VARTA ProMotive EFB is engineered to exceed the rigorous demands of heavy commercial vehicles. Built to deliver exceptional power and reliability, it's the ideal choice for vehicles with high energy requirements, including those equipped with basic overnight hoteling

VEHICLE KEY BENEFITS

3x cycle life

3x cycle life compared with a conventional battery.

High energy demands

Engineered to meet the most demanding energy requirements.

Basic Hoteling

For basic energy demands, i.e. parking coolers/heaters, up to three nights/week.

High vibration resistance

Built to withstand extreme road conditions and fitment at the end of frame with high vibration resistance.

End of frame installation

Suitable for end of frame installation.

Original equipment spare part

Meets all OE criteria from the vehicle manufacturer.

Engineered in Germany

Engineered with precision and expertise in Germany.

Made in Europe

Produced to the highest European standards ensuring best in class manufacturing quality.
