

## Service Info

# Over-running alternator pulley 535 0202 10

## Replaces 5 and 6 groove pulleys

Manufacturer: Chevrolet, Opel, Vauxhall

**Models:**

Chevrolet: Aveo, Cruze, Orlando  
 Opel/Vauxhall: Adam, Astra J, Cascada, Zafira C

**Engines:** A12XEL, A13DTE, A14 NEL,  
 A14XEL, A14XER, A14NET,  
 A16LET, A16XER, A16XNT, A18XER

Part no.: 535 0202 10

Manufacturer no. for over-running  
 alternator pulley: F-563424  
 F-580007

Image 1: Left, INA over-running alternator pulley 535 0202 10 with 6 grooves –  
 Right, over-running alternator pulley with 5 grooves

In the models specified above featuring a 100-A alternator, the accessory unit drive for the engine can be designed as a V-ribbed belt system with 5 or 6 grooves.

Schaeffler Automotive Aftermarket only offers the over-running alternator pulley with 6 grooves 535 0202 10 (image 2) for all models. This alternator pulley can also be used without any problems in alternators with a V-ribbed belt with 5 grooves.

Image 2: INA over-running alternator pulley 535 0202 10 with 6 grooves

When positioning the V-ribbed belt with 5 grooves on the over-running alternator pulley with 6 grooves, it is essential to ensure that the outer groove is left free (image 1, left). This guarantees that the V-ribbed belt is aligned when it runs.

Observe the specifications of the vehicle manufacturer!
